

EUROVAC ROLL OFF SUCTION CONTAINER WITH ROTARY BLOWER

The efficient Eurovac Suction container is a versatile container vacuum cleaner, designed for industrial central vacuum use in large systems. It offers a spacious 13 m³ waste container, an efficient 30 m² hose filter and automatic filter cleaning. The device is available with several different electric motor outputs (37kW, 45kW and 55kW). The Eurovac Suction Container offers an easy-to-use plug and play solution for many needs.

Roll off suction container with rotary blower 13m³

With a rotary blower, the dimensions of the roll off suction container 13m³:

H 2530 mm W 2610 mm D 5950 mm

Empty weight (45 kW) ~ 5300 kg

THE DIMENSIONS AND EMPTY WEIGHT OF THE DEVICES MAY VARY DEPENDING ON THE MODEL AND EQUIPMENT.
